

Work & Guard — 2025 Annual Impact Report

Bat Shlomo Healing Center, in partnership with the Work & Guard NGO and Fruit Trees 4 Israel, advances Israel's eco-communities through tree planting, soil stewardship, herbal medicine, and youth-at-risk employment.

Year in Review

In 2025 we planted 3,212 fruit trees across 47 acres in Bat Shlomo, the Galilee, and partner gardens. Eighteen farmers received direct grants and tools. Our healing center hosted 412 practitioner sessions and 12 healing concerts.

Highlights

- Restored the lower olive terrace (1.8 acres).
- Opened the Conference Hall for 60+ teaching events.
- Launched the Holy Land Herbs apprenticeship (8 graduates).
- Distributed 1,800 saplings to community gardens.

Outlook 2026

Goal: 5,000 trees, 60 acres, 25 farmers supported. Expand the cafe kitchen and welcome our first cohort of healing-arts residents.

Allocation Summary (NIS)

Program	Amount	Notes
Trees & planting	744,000	Saplings, irrigation, labor
Land guardianship	276,000	Fencing, soil work, water
Education & youth	120,000	Apprenticeships, scholarships
Operations	60,000	Admin & compliance
Total	1,200,000
